El conquistador

Producers: Hostoil (The Mediapro Studio)

After 20 seasons on ETB and 1 on TVE, the world's most extreme survival reality show continues breaking records.

Three teams of supermen, superwomen and normal people you'd never have imagined on this type of program will face high-stakes challenges to capture the show's flag. From walking through fire with their hands and feet tied together to jumping 20 meters into the void or crossing a cliff on a zip-line, only one of them will have the strength, courage, intelligence and endurance it takes to become The Conqueror of the End of the World.
