Dinner of a lifetime

Productoras: The Mediapro Studio

Is it possible to taste memories? In this hybrid between a cooking documentary and celebrity interview, a prestigious chef faces his most personal challenge: capturing the essence of his world-renowned guests and cooking up their emotions in a single meal.

In each episode, each dish created specially by the chef will take a celebrity on an emotional journey through their life and inspire reflections on their most memorable moments: moments of joy, sorrow, love and loss. A once-in-a-lifetime conversation and a magical understanding. Something that can only be achieved thanks to the intimacy created between a dinner guest and a dish uniquely designed to symbolize the experiences that have defined them as a person.

Non fiction
