Story inspired by the first Basque pelota players who challenged social conventions of the time in the early 1900's. Three independent women, born before their time, who challenged a male-dominated society and laid the foundations for the future of women's sport. Chelo, Idoia e Itzi will have to break down so many stereotypes, both professionally and personally and experience situations in which drama is combined with elements of adventure and a thriller in a storyline with no shortage of gangsters, corrupt policemen, thugs for-hire and unscrupulous businessmen.
