Justo Santos, a cabaret actor with a talent for mimic receives a succulent offer to star in a film with the director of the moment. Justo and his family see this opportunity as the chance to rise from obscurity and solve their economic problems but their dreams of prosperity are suddenly shattered when the director dies unexpectedly during a dinner the night before signing the contract. Iris, Justo's partner, suggests they hide the body until the contract has been signed. This seems to be quite straightforward but things get complicated when Berto, an ex-convict and Justo's brother and Katy, their mother, a retired cabaret star come in on the plan.
